

Submission Policy

Papers that have been published in "limited distribution" conference proceedings, digests, records, preprints, etc. can be submitted for consideration provided that the Editor is notified at the time of submission. Material is not to be submitted concurrently to meetings and to this Journal.

A paper should clearly indicate the relationship of the work described to the most relevant previous work. Most formulae in a paper should be accompanied by brief explanations in English. When mathematical proofs are not given, it is common to cite a technical report or other source where interested readers may find them.

The author is responsible for obtaining any necessary copyright releases for material which has been published previously, as well as all required corporate and security clearances prior to submitting material for consideration. It is UKSim's policy to assume that all clearances have been received by the author by the time a paper is submitted for publication. No paper published in other journals or books can be considered for publication in the *International Journal of Simulation: Systems Science & Technology*. Concurrent submission to other publications and this Journal is viewed as a serious breach of ethics and if detected will result in immediate rejection of the submission.

Preparation Of Manuscript: Important Change

As from Vol.10, No.1 IJSSST format will follow a similar template to that used by IEEE conferences, the main exception being the Abstract is spread over the paper width rather than the top of the left column. See <http://ijssst.info/info/template.doc>, <http://ijssst.info/info/template.pdf>

Headers and Footers: authors must insert headers and footers as follows:

Headers: must be in size 10 points, centred across the top of the page between the same margins as the main text, and consist of the first author's initials (without full stops) and surname followed by *et al* (in case of multiple authors) followed by a colon and a portion of the paper title up to the end of the line, in upper case, e.g.

S B YAAKOB *et al*: MAINTENANCE OF A TRAFFIC SIGNAL LIGHT

Footers: must be centred across the bottom of the page between the same margins as the main text with the page number in the centre, in size 10 points including the volume number, the issue number and the paper number within the issue, e.g for volume 15, issue 1, paper number 3, the footer would be as follows;

DOI 10.5013/IJSSST.a.15.01.03

38

ISSN: 1473-804x online, 1473-8031 print

REFERENCES: Follow the IEEE guidelines <http://www.ijssst.info/info/IEEE-Citation-StyleGuide.pdf>

Page Limit: 20PAGES. Papers should have a maximum length of 20 double column pages. Additional pages may be submitted, but there is an extra page charge of £50/page. We would prefer that you did not exceed the 20 page limit!

Questions on manuscript preparation should be addressed to the Editor.

Page Charges: To cover the processing charges levied by EDAS and the cost of publication, after a manuscript is accepted for publication the author must pay a charge of \$10 per page.

TRANSFER OF COPYRIGHT

International Journal of Simulation: Systems, Science & Technology (IJSSST)

PAPER EDAS ID CODE:

Paper Title:

Author(s):

May be completed by any one of the authors

I hereby transfer exclusively to the **International Journal of Simulation: Systems, Science & Technology (IJSSST)** all rights granted to me by the copyright laws of the United Kingdom of Great Britain and Northern Ireland and other countries, subject to the reservations below.

1. The transfer of copyright shall become effective only upon IJSSST's acceptance for publication of the work.
2. The author(s) reserve all proprietary rights (such as patent rights) in this work other than the copyright transferred to IJSSST by this document.
3. After this work has been published by IJSSST, the author(s) retain the right to republish it in whole or part in any book of which he/she is an author or editor and to make personal use of this work in lectures, courses, or otherwise.
4. If this work is in the public domain, such as education or other public service, I/we simply authorise its publication.
5. If this work is subject to security clearance, I certify that as of the date below it has been cleared.

I warrant that the above work has not been previously published elsewhere, or, if it has, that I have obtained permission for its publication in IJSSST and that I will promptly supply IJSSST with wording for crediting the original publication and copyright owner.

Please complete and upload a copy of this form into EDAS after acceptance and payment of registration fee.

Signature of anyone of the authors
